

# TOURS 2012

## INTERNATIONAL CONFERENCE

**Tackling climate change:  
the contribution of forest scientific  
knowledge**

May 21 - 24 , 2012, Tours (France)

## CONFERENCE INTERNATIONALE

**Faire face au changement  
climatique :  
la contribution de la science  
forestière**

21—24 Mai 2012, Tours (France)

## PROGRAMME

**Tours 2012 – Programme** (update May 14, 2012)

Hours	Monday 21 May	Tuesday 22 May	Wednesday 23 May	Thursday 24 May
8:00 - 9:00				
9:00 - 10:00		Scientific Parallel Sessions 2	Opening Plenary Session Forum for Stakeholders and Scientists	
10:00 - 11:00		Coffee break	Coffee break	
11:00 - 12:00	Welcome / Registration	Scientific Parallel Sessions 3	Plenary Panel Sessions Forum for Stakeholders and Scientists	
12:00 - 13:00	Buffet Lunch	Lunch	Lunch	
13:00 - 14:00				
14:00 - 15:00	Scientific Conference Opening Session	Scientific Parallel Sessions 4	Plenary Panel Sessions Forum for Stakeholders and Scientists	
15:00 - 16:00	Coffee break	Coffee break	Coffee break	
16:00 - 17:00	Scientific Parallel Sessions 1	Scientific Parallel Sessions 5	Closing session Synthesis and outcomes	
17:00 - 18:00				
18:00 - 19:00	Poster Session (with refreshment)		Satellite Meeting ECHOES Management committee COST evaluation panel	
19:00 - 20:00	ECHOES WG 2 Meeting			
20:00 - 21:00		Official Dinner		
21:00 - 22:00				
22:00 - 23:00				

Field trips  
(2 options)

ATTENTION:  
Departure: 7:45 am  
Arrival back in Tours: 5:30 pm

## MONDAY 21 MAY

	<h3><b>Opening session</b></h3>
<b>14:00 – 15:45</b>	<p><b>Moderator: Martin Greimel (COST Domain Committee on Forests, their Products and Services)</b></p> <ul style="list-style-type: none"><li>• Presentation of their projects and strategies by conference partners (5 minutes each):<ul style="list-style-type: none"><li>○ ECHOES : Jean-Luc Peyron (ECOFOR, France)</li><li>○ BACCARA : Hervé Jactel (INRA Bordeaux, France)</li><li>○ TRANZFOR : Jean-Michel Carnus (INRA, France)</li><li>○ REINFORCE: Christophe Orazio (EFI Atlantic)</li><li>○ FOREADAPT: Jordi Garcia Gonzalo (ISA, Portugal)</li><li>○ MOTIVE: Marc Hanewinkel (WSL, Switzerland) and Harald Bugmann (ETH, Switzerland)</li></ul></li></ul> <p><b>Moderator: Jean-Michel Carnus (IUFRO, division 8) and Martin Greimel</b></p> <ul style="list-style-type: none"><li>• Key addresses:<ul style="list-style-type: none"><li>○ Climate change and biome shifts: Nicklaus E. Zimmermann (WSL, Switzerland)</li><li>○ Adaptation: Rodney J. Keenan (Univ. of Melbourne, Australia)</li><li>○ New perspectives on the role of European forests in carbon sequestration: an overview. Gert-Jan Nabuurs (EFI)</li><li>○ Climate Change and Forest Sciences: Linda Joyce (Forest Service, USA)</li></ul></li></ul>
<b>15:45 – 16:15</b>	<b>COFFEE BREAK</b>

## LUNDI 21 MAI

	<h3>Session d'ouverture</h3>
14:00 – 15:45	<p><b>Modérateur : Martin Greimel (COST Domain Committee on Forests, their Products and Services)</b></p> <ul style="list-style-type: none"><li>• Présentation des projets et stratégies des partenaires de la conférence (5 minutes chacun):<ul style="list-style-type: none"><li>○ ECHOES : Jean-Luc Peyron (ECOFOR, France)</li><li>○ BACCARA : Hervé Jactel (INRA Bordeaux, France)</li><li>○ TRANZFOR : Jean-Michel Carnus (INRA, France)</li><li>○ REINFORCE : Christophe Orazio (EFI Atlantic)</li><li>○ FOREADAPT : Jordi Garcia-Gonzalo (ISA, Portugal)</li><li>○ MOTIVE : Marc Hanewinkel (WSL, Suisse) et Harald Bugmann (ETH, Suisse)</li></ul></li></ul> <p><b>Modérateur : Jean-Michel Carnus (IUFRO, division 8) et Martin Greimel</b></p> <ul style="list-style-type: none"><li>• Présentations introductives :<ul style="list-style-type: none"><li>○ Changement climatique et déplacement des biomes : Nicklaus E. Zimmerman (WSL, Suisse)</li><li>○ Adaptation au changement climatique: Rodney J. Keenan (Univ. de Melbourne, Australie)</li><li>○ Nouvelles perspectives sur le rôle des forêts européennes dans la séquestration du carbone : une vue d'ensemble. Gert-Jan Nabuurs (EFI)</li><li>○ Changement climatique et Sciences Forestières : Linda Joyce (Forest Service, Etats Unis)</li></ul></li></ul>
15:45 – 16:15	<b>PAUSE-CAFÉ</b>

## MONDAY 21 MAY

### 16:15- 18:00. SCIENTIFIC PARALLEL SESSIONS 1

IMPACTS	RESILIENCE 1	RISKS and UNCERTAINTIES
<ul style="list-style-type: none"> <li>• 'Hot-spots' of climate change impacts in European forests – results of a questionnaire. <b>Peter Spathelf</b> - Eberswalde University for sustainable development - Germany</li> <li>• Impact of climate on trees: identification of proxies in trees for measuring climatic stress. <b>Brian Tobin</b> - UCD, Forest Research - UK</li> <li>• Integrating parameter uncertainty of process-based forest models in assessments of global change impacts on forest productivity. <b>Christopher Reyer</b> - Potsdam Institute for Climate Impact Research - Germany</li> <li>• Using probabilistic climate change projections and an ecological site classification to assess the future risk of climate impacts on tree species in Britain. <b>Michal Petr</b> - University of Twente – The Netherlands</li> <li>• Modelling the impact of atmospheric nitrogen deposition on french forests in the context of climate change. <b>Noémie Gaudio</b> – CNRS- France</li> <li>• New evidences of the impacts of global change at the southern edge populations of silver fir (<i>Abies alba Mill.</i>) distribution range. <b>Laura Hernández</b> - CIFOR-INIA - Spain</li> </ul>	<ul style="list-style-type: none"> <li>• Tree regeneration vulnerability to climate change: relative contributions of direct climate effects, plant interactions, herbivores &amp; pathogens in mountain forests. <b>Georges Kunstler</b> - Cemagref - France</li> <li>• Climate change and forest genetic resources: scientific challenges, risks and opportunities. <b>Bruno Fady</b> – INRA - France</li> <li>• Adaptive silviculture regarding climate change: the geneticist's view. <b>François Lefèvre</b> INRA - France</li> <li>• Modelling of photosynthesis in relation to light and environmental variables of natural regeneration of two mixed pinus pinea-quercus ilex-juniperus oxycedrus stands. <b>Carolina Mayoral</b> - CIFOR INIA – Spain</li> <li>• Drought-adaptive potential of central and marginal provenances of European beech. <b>Andreas Bolte</b> - Johann Heinrich von Thünen-Institute, Institute of Forest Ecology and Forest Inventory - Germany</li> <li>• What determines adaptability? A case study with silver birch. <b>Boy Posse</b> – The Finnish Forest Research Institute - Finland</li> </ul>	<ul style="list-style-type: none"> <li>• Economics of Species Change under Risk of Climate Change: A Sensitivity and (Quasi-) Option Value Analysis. <b>Marielle Brunette</b> –INRA - France</li> <li>• Addressing climate change scenarios in eucalypt forest management. A landscape level optimization study case. <b>Jordi Garcia-Gonzalo</b> – University of Lisbona - Portugal</li> <li>• Coping with possible wildfire regime shifts under a changing climate: Need for local management in western Canada. <b>Akira S Mori</b> –Yokohama Natl. University - Japan</li> <li>• Ecosystem Management in the Face of Uncertainty: Organisational Problem-Solving Performances of German State Forest Administrations Concerning Climate Change Adaptation Measures. <b>Fenn Faber and Roderich v. Detten</b> – Albert Ludwig University of Freiburg - Germany</li> <li>• Dealing with uncertainty in forest management under climate change. <b>Emina Krcmar</b> – Univ. of British Columbia - Canada</li> <li>• Adapting to incremental and threshold climate change impacts to forests. <b>Jody Bruce</b> – CSIRO - Australia</li> </ul>

## TUESDAY 22 MAY

8:30 – 10:15. SCIENTIFIC PARALLEL SESSIONS 2		
PRODUCTIVITY, DISTRIBUTION 1	RESILIENCE 2	ECOSYSTEM SERVICES
<ul style="list-style-type: none"><li>Simulated forest productivity and biomass changes under global change. <b>Christopher Reyer</b> - Potsdam Institute for Climate Impact Research - Germany</li><li>How will climate change affect the relationship between tree diversity and productivity in European temperate forests? <b>Xavier Morin</b> - CNRS - France</li><li>Forest productivity shifts under climate change in Europe -: a model-based analysis. <b>Petra Lasch</b> - Potsdam Institute for Climate Impact Research - Germany</li><li>Long-term growth changes in a temperate lowland region during the last century: a retrospective analysis of tree rings comparing linear and non-linear mixed modelling approaches. <b>Wim Aertsen</b> - K.U.Leuven – Belgium</li><li>Did South Western European tree species shift upward during the last decade? <b>Morgane Urli</b> - UMR Biogeco - INRA - France</li><li>Spatiotemporal prediction of site-productivity in Baden-Württemberg. <b>Arne Nothdurft</b> - Forest Research Institute Baden-Württemberg – Germany</li></ul>	<ul style="list-style-type: none"><li>Adaptability of silver birch (<i>Betula pendula</i> Roth) to elevated temperature and changing water regimen. <b>Mikko J. Anttonen</b> - Finnish Forest Research Institute - Finland</li><li>Structural acclimation and photosynthesis of tree canopy in changed climate. <b>Mikko Peltoniemi</b> - Finnish Forest Research Institute - Finland</li><li>Mechanisms of local adaptation to climatic gradients: lessons from a Physio-Demo-Genetics Model. <b>Sylvie Oddou-Muratorio</b> - INRA - France</li><li>Can we rely on natures spontaneity in the light of climate change predictions? <b>Csaba Mátyás</b> – University West Hungary - Hungary</li><li>Trends in the natural regeneration patterns of beech and silver fir in the Eastern Carpathians (Romania) under the climate change and Forest management. <b>Ion Barbu</b> - Forest Research Institute - Romania</li></ul>	<ul style="list-style-type: none"><li>Overestimation in the sensitivity of soil respiration to climate change throughout the mid-latitudes. <b>Callum Berridge</b> – Vrije Universiteit Amsterdam – The Netherlands</li><li>Assessment of cork production in new <i>Quercus suber</i> plantations under future climate. <b>Joana, Amaral Paulo</b> - Centro de Estudos Florestais; Instituto Superior de Agronomia - Portugal</li><li>Are forest fungi affected by climate change? Diversity and structure of ectomycorrhizal fungal communities along altitudinal gradients in Europe. <b>Benoit Marçais</b> - INRA Nancy - France</li><li>Effect of altitude on forest herbivores and their parasitoids: a meta-analysis. <b>Marc Kenis</b> - CABI Europe - Switzerland</li></ul>
10:15 – 10:45	COFFEE BREAK	

## TUESDAY 22 MAY

10:45 – 12:30. SCIENTIFIC PARALLEL SESSIONS 3		
<b>PRODUCTIVITY, DISTRIBUTION 2</b> <ul style="list-style-type: none"><li>Impact of climate on growth and mortality of trees in the Black Forest. <b>Heinrich Spiecker</b> - Institute for Forest Growth - Germany</li><li>The impact of climate change on the health condition and yield of sessile oak along its xeric limit. <b>Attila Eredics</b> - University of West Hungary, Faculty of Forestry, Institute of Environmental and Earth Sciences - Hungary</li><li>Exploring Eucalyptus fastigata growth with 3PG projections in New Zealand under different climate scenarios. <b>Dean Meason</b> - SCION - New Zealand</li><li>Vulnerability of key French forest tree species to climate change, possibility of substitution of species in forestry. <b>Christel Anger</b> - INRA - France</li></ul>	<b>MANAGEMENT FOR ADAPTATION 1</b> <ul style="list-style-type: none"><li>The role of forestry in national climate change adaptation policy: An explorative assessment of cases from Sweden, Germany, France and Italy. <b>Carina H. Keskitalo</b> – UMEA University - Sweden</li><li>REsource INFrastructures for monitoring, adapting and protecting European Atlantic FOREsts under Changing climate. <b>Christophe Orazio</b> – EFI Atlantic</li><li>Designing Adaptive and Sustainable Forests in Response to Climate Change: A case study in Northern Wales. <b>Duncan Ray</b> – Forest Research - UK</li><li>Deployment of alternative species in conifer plantation forests in New Zealand and the United Kingdom as a means of adaptation to climate change a comparative case study and risk analysis. <b>Bill Mason</b> – Forest research - Scotland</li><li>Adaptive management of mountain forests. <b>Robert Jandl</b> – Forest Research Center - Austria</li><li>Optimizing the management of even-aged beech stands under climate change uncertainty. <b>Antoni Trasobares</b> – ETH - Switzerland</li></ul>	<b>MITIGATION 1</b> <ul style="list-style-type: none"><li>Wood preservation (carbon sequestration) or wood burning (fossil-fuel substitution), which is best for mitigating climate change? <b>Philippe Leturcq</b> – Univ. Toulouse - France</li><li>Dividing GHG emissions by 4 in the French housing sector: contribution of land use efficiency in forestry and agriculture. <b>Arthur Riedacker</b> and <b>Stefano Migliore</b> – Silva et Oikos - France</li><li>Mitigation of climate change thru boreal forest management. <b>Kenneth Sahlén</b> – Univ. Agricultural Science - Sweden</li><li>Assessing and improving the overall carbon balance of the forest-wood sector: methods and approaches, uncertainties and consequences. <b>Sebastian Rueter</b> - Johann Heinrich Von Thuenen Institut - Germany</li></ul>
<b>12:30 – 14:00</b>	<b>LUNCH</b>	

## TUESDAY 22 MAY

14:00 – 15:45. SCIENTIFIC PARALLEL SESSIONS 4		
DISTURBANCES 1	MANAGEMENT FOR ADAPTATION 2	MITIGATION 2
<ul style="list-style-type: none"> <li>The WINDA-GALES wind damage probability planning tool. <b>Barry Gardiner</b> – Forest Research, Northern Research Station - United Kingdom</li> <li>Drivers and impacts of intensified disturbance regimes in European forests. <b>Rupert Seidl</b> - University of Natural Resources and Life Sciences (BOKU) - Austria</li> <li>Observed and expected impact of climate change on a defoliator insect species, the pine processionary moth, in France and Europe. <b>Christelle Robinet</b> - INRA - France</li> <li>Disturbance-driven northwards spread of European beech in Southern Sweden. <b>Andreas Bolte</b> - Johann Heinrich von Thünen-Institute, Institute of Forest Ecology and Forest Inventory - Germany</li> <li>Likelihood of improving climatic conditions for the pine-tree lappet moth (<i>Dendrolimus pini</i>) in Scotland: an examination of the probabilistic climate change projections for the UK. <b>Duncan Ray</b> - Forest Research - UK</li> </ul>	<ul style="list-style-type: none"> <li>Adaptive forest fire management in the Mediterranean Europe. <b>Yannis Raftoyannis</b> – Technological Educational Institute of Lamia - Greece</li> <li>Optimizing the management responses to the climate change in the boreal conditions methods and findings. <b>Seppo Kellomäki</b> – University of Eastern Finland - Finland</li> <li>Adapting forests to climate change in the French Mediterranean Mountains: how far forest management can facilitate species succession, consider growth potential modification, and ensure the continuity of some ecosystem services. <b>Philippe Dreyfus</b> – INRA - France</li> <li>Exploring adaptive management options under climate change in a biosphere reserve. <b>Stefan Schörghuber</b> – Institute of Silviculture - Austria</li> <li>Wind damage probability-reducing forest management and its effects on recreation- and life-style values, and yield. <b>Kristina Blennow</b> – University of Agricultural Sciences - Sweden</li> <li>Close-to-nature silviculture as adaptation strategy to climate change. <b>Peter Brang</b> – Federal Institute of Forest - Switzerland</li> </ul>	<ul style="list-style-type: none"> <li>Fuelwood, timber and climate change: Insights from forest sector modeling. <b>Sylvain Cauria</b> – INRA - France</li> <li>The impacts of the Kyoto protocol on climate change mitigation in boreal forests. <b>Hanne K. Sjølie</b> – University of Life Science - Norway</li> <li>Sequester or substitute - Consequences of the increased production of bioenergy in Finland. <b>Maarit Kallio</b> – Finnish Forest Research Institute - Finland</li> <li>Tool for Simulation of Forest Mitigation Potentials. <b>Volker Mues</b> - Von Thünen Institute (Vti) - Germany</li> <li>Forest biomass production and their potential use to mitigate climate change. <b>Bishnu Chandra Poudel</b> – Mid Sweden University – Sweden</li> <li>Kyoto forests in middle Zavolgie of Russia: monitoring, validation and certification. <b>Eldar Kurbanov</b> – Mari State Technical Univ. - Russia</li> </ul>
15:45 – 16:15	COFFEE BREAK	

## TUESDAY 22 MAY

### 16:15 – 18:00. SCIENTIFIC PARALLEL SESSIONS 5

DISTURBANCES 2	MANAGEMENT FOR ADAPTATION 3	SOCIO ECONOMIC ASPECTS AND KNOWLEDGE MANAGEMENT
<ul style="list-style-type: none"><li>Uncertainties of forest risks assessment under climate change. <b>Johannes Merklein</b> - Göttingen University - Germany</li><li>Overview of European forest pest and pathogen population responses to climate change. <b>Andrea Battisti</b> – University of Padova - Italy</li><li>Responses of forest pests to climate change: tree resistance and herbivore damage along European elevational gradients. <b>Ewelina Czwierczek</b> - Poland</li><li>Forest insects and climate change: Can management mitigate the risks? <b>Christer Björkman</b> - University of Agricultural Sciences - Sweden</li><li>Historical range of variability in temperate mountain spruce forests of Central Europe. <b>Miroslav Svoboda</b> - Czech University of Life Sciences – Czech Republic</li><li>Drought explains outbreak dynamics and altitudinal range expansion of a destructive bark beetle. <b>Lorenzo Marini</b> – University of Padova - Italy</li></ul>	<ul style="list-style-type: none"><li>Stand composition and stocking management in Mediterranean Stone pine (<i>P. pinea L.</i>) forests as adaptive measures to climate change. <b>Javier de Dios</b> – CIFOR INIA – Spain</li><li>Vulnerability assessment of ecosystem services and adaptive management options in Austrian mountain forests under climate change. <b>Michael Maroschek</b> – Institute of Silviculture - Austria</li><li>Territorial foresight and regional strategies for forest management in the face of climate change - The Landes de Gascogne 2050: case study. <b>Oliver Mora</b> – INRA - France</li><li>Climate change impact and adaptation in the managed Canadian boreal forest: a review of current knowledge. <b>Pierre Bernier</b> – Canadian Forest Service - Canada</li><li>Tree breeding as a tool to minimize possible adverse effects of climate changes on forest trees. <b>Aris Jansons</b> - LSFR SILAVA - Latvia</li><li>Preparedness to climate change in European forestry based on COST ECHOES database on adaptive measures. <b>Marcus Lindner</b> – EFI - Finland</li></ul>	<ul style="list-style-type: none"><li>A first national assessment of climate change risks for forestry in the UK. <b>Andy Moffat</b> – Forest Research - UK</li><li>Assessing ExpertsOpinion on Challenges and Opportunities of Tackling Deforestation in the tropics: a Q- Method Application. <b>Maria Nijnik</b> – The James Hutton Institute - UK</li><li>Adaptation, mitigation and ecosystem services - Challenges to sustainable forest management and research needs. <b>Jean-François Dhôte</b> – ONF - France</li><li>Forest owner motivations and attitudes towards land-use change for bio-energy production in Europe. <b>Kristina Blennow</b> - University of Agricultural Sciences - Sweden</li><li>A web-based tool for participatory vulnerability assessment of forest ecosystem services. <b>Werner Rammer</b> - Institute of Silviculture - Austria</li><li>No manual for the future: helping private woodland owners to adapt to climate change. <b>Mariella Marzano</b> – Forest Research - UK</li><li>Modelling for Knowledge Update in Adaptive Forest Management. <b>Rasoul Yousefpour</b> - Forest &amp; Landscape - Denmark</li><li>Forest change - Generating, Integrating and Delivering Climate Change Knowledge to Support Forest Sector Adaptation in Canada. <b>Catherine Ste-Marie</b> – Canadian Forest Service - Canada</li></ul>

19:00 – 23:00

OFFICIAL DINNER (with the participation of ONF hunting-horns players)

## **WEDNESDAY 23 MAY - MORNING**

8:30 – 10:00	<p><b>Opening Plenary Session - Forum for stakeholders and scientists</b></p> <ul style="list-style-type: none"><li>• Address of the Ministry in charge of Agriculture (<b>François Moreau</b>, to be confirmed)</li></ul> <p><b>Moderator: Prof. Frits Mohren (Wageningen University, The Netherlands)</b></p> <ul style="list-style-type: none"><li>• Science decision interface in Europe: Think forest: <b>Gert-Jan Nabuurs</b> (EFI)</li><li>• The role of culture in climate change and its effect on history. <b>Klaus Theo Seeland</b> (ETHZ, Switzerland)</li><li>• Forest contribution to tackle climate change: French public policies and ADEME's actions. <b>Caroline Rantien</b> (ADEME)</li><li>• Setting the scene: Climate change in Europe: <b>Emmanuel Cloppet</b> (Météo France)</li></ul>
10 :00 – 10 :30	<p style="text-align: center;"><b>COFFEE BREAK</b></p>
10:30 – 12:30	<p><b>Plenary Panel Sessions - Forum for Stakeholders and Scientists</b></p> <ol style="list-style-type: none"><li>1. Understanding ecological, economic and social climate change impacts <b>Moderator: Petra Lasch (PIK, Germany)</b><ul style="list-style-type: none"><li>- <b>Emmanuel Cloppet</b> ( Météo France)</li><li>- <b>Linda Joyce</b> (US Forest Service, USA)</li><li>- <b>Marcus Lindner</b> (EFI)</li><li>- <b>François Lefèvre</b> (INRA, France)</li><li>- <b>Heinrich Spiecker</b> (Institute for Forest Growth, Germany)</li><li>- <b>Nicklaus E. Zimmerman</b> (WSL, Switzerland) – to be confirmed</li><li>- <b>Andy Moffat</b> ( Forest Research, UK) – to be confirmed</li></ul></li><li>2. Forest management under climate change (adaptation and mitigation) <b>Moderator: V. Alaric Sample ( Pinchot Institute, USA)</b><ul style="list-style-type: none"><li>- <b>Inazio Martinez de Arano</b> (USSE)</li><li>- <b>Jean-François Dhôte</b> (ONF, France)</li><li>- <b>Duncan Stone</b> (Scottish National Heritage, UK)</li><li>- <b>Rodney J Keenan</b> (Melbourne Univ, Australia) – to be confirmed</li><li>- <b>Manfred Lexer</b> (Vienna Univ. Of Land Management, Austria)</li><li>- <b>Seppo Kellomäki</b> (University of Eastern Finland)</li></ul></li></ol>
12:30 – 14:00	<p style="text-align: center;"><b>LUNCH</b></p>

## MERCREDI 23 MAI - MATIN

8:30 – 10:00	<p><b>Session plénière – Ouverture du Forum pour décideurs et scientifiques</b></p> <ul style="list-style-type: none"><li>• Introduction du Ministère en charge de l'Agriculture (<b>François Moreau</b>, à confirmer)</li></ul> <p><b>Modérateur : Prof. Frits Mohren (Univ. De Wageningen, Pays-Bas)</b></p> <ul style="list-style-type: none"><li>• Interface Science Décision en Europe : Think forest : <b>Gert-Jan Nabuurs</b> (EFI)</li><li>• Le rôle de la culture dans le changement climatique et son effet sur l'histoire. <b>Klaus Theo Seeland</b> (ETHZ, Suisse)</li><li>• Contribution de la forêt dans la lutte contre le changement climatique : politiques publiques françaises et actions de l'ADEME. <b>Caroline Rantien</b> (ADEME, France)</li><li>• Dresser le décor : quel changement climatique en Europe ? <b>Emmanuel Cloppet</b> (Météo France)</li></ul>
10 :00 – 10 :30	<b>PAUSE-CAFÉ</b>
10:30 – 12:30	<p><b>Sessions plénierées – Tables rondes du Forum pour décideurs et scientifiques</b></p> <ol style="list-style-type: none"><li>1. Comprendre les impacts écologiques, économiques et sociaux du changement climatique <b>Modérateur: Petra Lasch (PIK, Allemagne)</b><ul style="list-style-type: none"><li>- <b>Emmanuel Cloppet</b> ( Météo France)</li><li>- <b>Linda Joyce</b> (US Forest Service, USA)</li><li>- <b>Marcus Lindner</b> (EFI)</li><li>- <b>François Lefèvre</b> (INRA, France)</li><li>- <b>Heinrich Spiecker</b> (Institute for Forest Growth, Allemagne)</li><li>- <b>Nicklaus E. Zimmerman</b> (WSL, Suisse) – à confirmer</li><li>- <b>Andy Moffat</b> ( Forest Research, Royaume-Uni) – à confirmer</li></ul></li><li>2. La gestion forestière dans un contexte de climat changeant (adaptation et atténuation) <b>Modérateur: V. Alaric Sample ( Pinchot Institute, USA)</b><ul style="list-style-type: none"><li>- <b>Inazio Martinez de Arano</b> (USSE)</li><li>- <b>Jean-François Dhôte</b> (ONF, France)</li><li>- <b>Duncan Stone</b> (Scottish National Heritage, Royaume-Uni)</li><li>- <b>Rodney J Keenan</b> (Melbourne Univ, Australie) – à confirmer</li><li>- <b>Manfred Lexer</b> (Vienna Univ. of Land Management, Autriche)</li><li>- <b>Seppo Kellomäki</b> (University of Eastern Finland, Finlande)</li></ul></li></ol>
12:30 – 14:00	<b>DÉJEUNER</b>

## ***WEDNESDAY 23 MAY - AFTERNOON***

	<b><i>Plenary Panel Sessions - Forum for Stakeholders and Scientists</i></b>
<b><i>14:00 – 16:00</i></b>	<p>3. Public policies and governance facing climate change <i>Moderator: Marc Hanewinkel (WSL, Switzerland)</i></p> <ul style="list-style-type: none"><li>- Olivier Picard (CNPF, France)</li><li>- Caroline Rantien (ADEME)</li><li>- Michael Stephens (Australian Forest products association)</li><li>- Pierre Bernier (Canadian Forest Service) – to be confirmed</li><li>- Gert-Jan Nabuurs (EFI)</li></ul> <p>4. Forest monitoring designed for climate change <i>Moderator: Guy Landmann (ECOFOR, France)</i></p> <ul style="list-style-type: none"><li>- Andreas Bolte ( VTI, Germany) – to be confirmed</li><li>- Liquete Camino (JRC) – to be confirmed</li><li>- Hervé Jactel (INRA, France) – to be confirmed</li><li>- Robert Jandl (Forest Research Center, Austria) – to be confirmed</li><li>- Georges Kunstler (Irstea, France)</li><li>- Christophe Orazio (EFI Atlantic)</li></ul>
<b><i>16:00 – 16:30</i></b>	<b><i>COFFEE BREAK</i></b>
<b><i>16:30 – 18:00</i></b>	<p><b><i>Closing session</i></b> <i>Moderator: Claire Hubert (Ministry in charge of Ecology and Sustainable Management, Research Dept.)</i></p> <ul style="list-style-type: none"><li>• Echoes recommendations for forestry facing climate change in Europe. Jean-Luc Peyron and ECHOES Committee</li><li>• Strategies facing climate change in the Mediterranean Basin. Rémi Veyrand (AIFM)</li><li>• Recommendations for forestry facing climate change in Canada. Catherine Sainte-Marie (Canadian Forest Service)</li><li>• US strategies for climate change adaptation. V. Alaric Sample (Pinchot Institute, USA)</li><li>• Synthesis and outcomes</li></ul>
<b><i>18:00 – 20:00</i></b>	Satellite meeting: ECHOES Management Committee and COST evaluation panel

## **MERCREDI 23 MAI – APRÈS MIDI**

<b>14:00 – 16:00</b>	<b>Sessions plénierées – Tables rondes du Forum pour décideurs et scientifiques</b>  3. Quelles politiques publiques et quelle gouvernance pour faire face au changement climatique <i>Modérateur: Marc Hanewinkel (WSL, Suisse)</i>  - Olivier Picard (CNPF, France) - Caroline Rantien (ADEME) - Michael Stephens (Australian Forest products association) - Pierre Bernier (Service Canadien des Forêts) – à confirmer - Gert-Jan Nabuurs (EFI)  4. Quel type de suivi continu des forêts pour les effets du changement climatique <i>Modérateur: Guy Landmann (ECOFOR, France)</i>  - Andreas Bolte ( VTI, Allemagne) – à confirmer - Liquete Camino (JRC) – à confirmer - Hervé Jactel (INRA, France) – à confirmer - Robert Jandl (Forest Research Center, Autriche) – à confirmer - Georges Kunstler (Irstea, France) - Christophe Orazio (EFI Atlantic)
<b>16:00 – 16:30</b>	<b>PAUSE-CAFÉ</b>
<b>16:30 – 18:00</b>	<b>Session de clôture</b> <i>Modérateur: Claire Hubert (MEDDTL, Service Recherche)</i> <ul style="list-style-type: none"><li>• Les recommandations d'Echoes à l'intention du secteur forestier pour faire face au changement climatique en Europe. <b>Jean-Luc Peyron et Comité ECHOES</b></li><li>• Stratégies pour faire face au changement climatique dans le Bassin Méditerranéen. <b>Rémi Veyrand (AIFM)</b></li><li>• Quelles recommandations au secteur forestier pour faire face au changement climatique au Canada. <b>Catherine Sainte-Marie (Service Canadien des Forêts)</b></li><li>• Stratégies d'adaptation au changement climatique pour les Etats Unis. <b>V. Alaric Sample (Pinchot Institute, USA)</b></li><li>• Synthèse et bilan de la conférence</li></ul>
<b>18:00 – 20:00</b>	Réunion satellite : Comité de pilotage d'ECHOES et comité d'évaluation COST

## Thursday 24 May: Field trips

### EAST ROUTE 1 Vierzon - Loches

7h45: Departure from Vinci Conference Center

9h45 – 11h45: Visit of Vierzon State Forest:  
- Decline of oak and contingency measures

11h45 - 13h00: Lunch at restaurant in Vierzon  
("Le Chalet de la Forêt" – Ph. #: 02 48 75 35 84)

13h00 – 14h30: Route to Loches

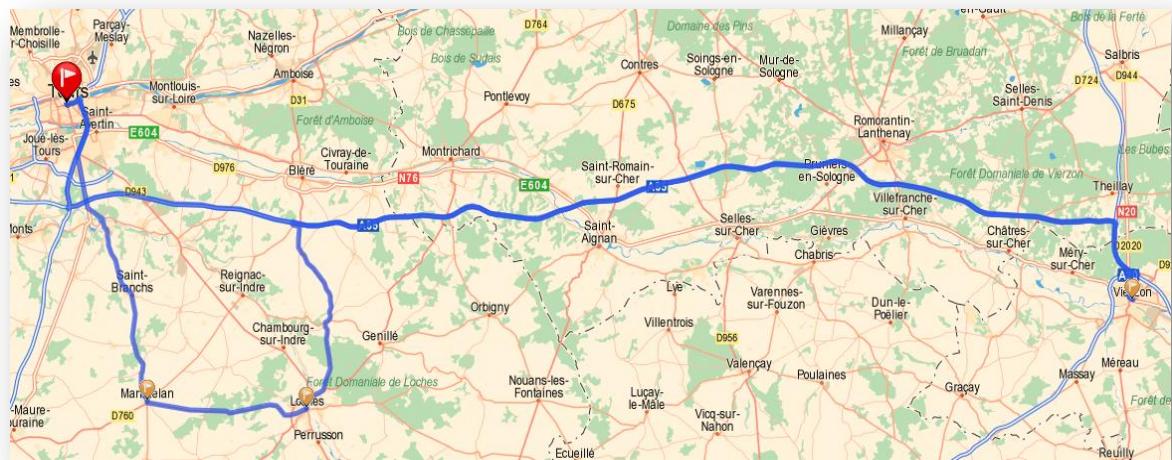

14h30 – 15h00: Visit of Loches State Forest:  
- Silviculture of sessile oak

15h00 - 15h15: Route to the forest of Kerleroulx

15h15 – 16h45: Visit of a private forest (Forest of Kerleroulx,  
Manthelan township):  
- Discussion on the decline of pedunculate oak  
- Diagnosis of tree resilience after drought (Archi)  
- Diagnosis of the site and adapted species

16h45 - 17h30: Route to Tours

17h30: Arrival at the Conference Center

## JEUDI 24 MAI - TOURNEES DE TERRAIN

### TOURNEE EST 1 Vierzon - Loches

7h45: Départ du Centre de Congrès VINCI

9h15 – 11h45 : Visite de la forêt domaniale de Vierzon :  
- Dépérissage du chêne et gestion de crise

11h45 – 13h00 : Déjeuner au restaurant à Vierzon  
(``Le Chalet de la Forêt'' - Tél : 02 48 75 35 84)

13h00 – 14h30 : Trajet vers Loches

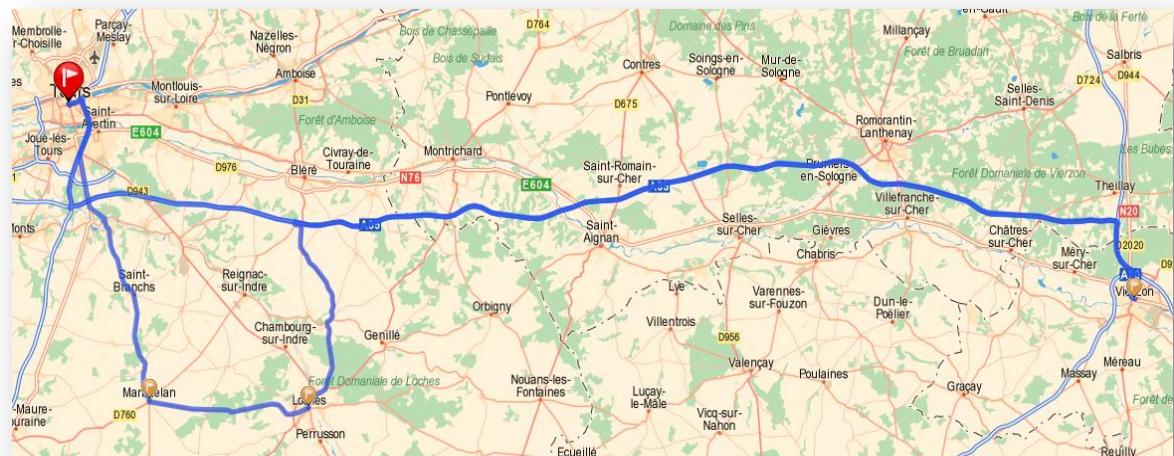

14h30 – 15h00 : Visite de la forêt domaniale de Loches :  
- Sylviculture du chêne sessile

15h00 – 15h15 : Trajet vers la forêt de Kerleroulx

15h15 – 16h45 : Visite d'une forêt privée (Forêt de Kerleroulx,  
Commune de Manthelan) :  
- Discussion sur le dépérissage du chêne  
pédonculé
